## Silver Falcon Mining, Inc. (SFMI) Engages RMS Ross Corporation for Mill Site Construction

### Town of Melba, Idaho Grants Mill Permit

BRADENTON, FL -- (MARKET WIRE) -- 02/20/08 -- Silver Falcon Mining, Inc. (Other OTCBB: [SFMI.PK](#) - [News](#)) today announced a letter of engagement has been received from RMS Ross Corporation, stating the following:

Silver Falcon Mining has the rights to the historic War Eagle silver gold deposit in south western Idaho. The claims have historically proven to have significant gold and silver in both the head ore and tailings of this substantial mineralized vein structure. RMS Ross Corporation has been contracted to engineer, fabricate, assemble and source the components needed for the Pilot milling and recovery circuit. This Pilot Mill is being constructed in an enclosed building in the town of Melba, Idaho.

The pilot plant is being assembled and shipped in stages, allowing for the staged set up of the plant facility.  
Stage One: 4x3 Marcy ball mill and related accessories has already been received on site.

Stage Two: 8' Grizzly, 5.5 cu yard hopper, Telsmith 10 x 21 jaw crusher, and Simplicity 18" x 8" Panfeeder, mounted on a Primary Crusher Skid Assembly. Stage 2 will be set up and tested prior to shipping.

Test work has been conducted at MetSolve Labs, Burnaby, BC, to determine the liberation and gravity concentration potential of the ore. It was recently determined that a minimum 5% mass pull is required in order to maximize recovery of gold/silver values. This has eliminated the batch centrifugal concentrator that was originally considered, and makes the continuous centrifugal concentrator the best solution for the project.

In response to the letter, Mr. Quilliam, CEO, said, "The granting of the operating permit, by the town of Melba and this ongoing assembly of the mill will allow us to proceed with the transport of the ore from the mountain as soon as the snows melt enough to allow truck access to the mountain."

Silver Falcon Mining, Inc. is an exploration and development Company specializing in high-grade Gold and Silver mining properties in North America, [www.silverfalconmining.com](http://www.silverfalconmining.com).
